SUMMARY

Software engineer with 5 years of experience in high-scale digital products across delivery, HR, e-commerce, and banking. Work with Kotlin (Android and KMP), React Native, and TypeScript, with a focus on quality, accessibility, and code that lasts.

At Stone, worked on a banking product with 500K+ daily accesses in a 500+ module codebase using Clean Architecture, Compose Multiplatform, and observability with Datadog, Amplitude, and Firebase. Previously built a design system and contributed to a rebranding at Gupy. Undergraduate thesis in digital accessibility (WCAG). Currently developing personal projects in native Kotlin to strengthen Android expertise.

EXPERIENCE

Stone

Sep 2023 – present

Software Engineer II → III (promoted)

- Banking product with 500K+ daily accesses in a 500+ module codebase built with Kotlin Multiplatform and Compose Multiplatform
- Clean Architecture + MVVM; dependency injection with Kodein, networking with Ktorfit, concurrency with Coroutines and Flow
- React Native as a pluggable integration layer with the mobile app; test coverage with kotlin.test, Fakes, Turbine, Robot pattern, Paparazzi, and Maestro E2E
- Production observability with Datadog; A/B testing and behavioral analytics with Amplitude and Firebase

Tech: Kotlin Multiplatform · Compose Multiplatform · React Native · Clean Architecture · Kodein · Ktorfit · Coroutines · Flow · Datadog · Amplitude · Firebase

Gupy

2022 – 2023

Frontend Developer

- Design system and rebranding for multiple internal teams
- Components with Stencil.js, WCAG accessibility, and documentation in Storybook

Tech: Stencil.js · WCAG · Storybook · TypeScript

pede.ai

2021 – 2022

Frontend/Mobile Developer

- Delivery platform built with React.js, Next.js, and React Native

Tech: React.js · Next.js · React Native · TypeScript

EDUCATION

Computer Engineering

2017 – 2025

Federal University of Vale do São Francisco (Univasf)

Thesis: Digital Accessibility — WCAG compliance evaluation in web applications

STACK

Mobile	React Native · Kotlin · KMP · Compose Multiplatform · Swift
Architecture	Clean Architecture · MVVM · Kodein · Ktorfit · kotlinx.serialization · Coroutines · Flow
Frontend	React.js · Next.js · TypeScript · JavaScript · HTML · CSS
Design System & A11y	Storybook · Stencil.js · WCAG · Accessible components
Testing	kotlin.test · Fakes · Turbine · Robot pattern · Paparazzi · Maestro E2E · Jest
Observability	Datadog · Amplitude · Firebase
Build & Quality	Gradle · Detekt · Ktlint · Kover · Git · GitFlow

SOFT SKILLS

- **Informal leadership** — takes initiative on process and quality improvements without waiting for delegation
- **Systems thinking** — considers the impact of technical decisions on the product, team, and operations
- **Facilitation and communication** — creates space to align context between technical and non-technical stakeholders
- **Organization and predictability** — values backlog clarity and visibility of dependencies before starting
- **Engineering ambition** — actively interested in engineering management and how processes scale with teams
